For Army

MAY ADOPT PLAN  
FOR ENTIRE NATION

Four Lawrence County  
Boards To Have Quota  
Of 179 Men Under  
Plan

(International News Service)

CALL 179 FROM  
LAWRENCE COUNTY

Quotas for examination under the new call for New Castle and Lawrence County are as follows:  
Lawrence County Board No. 1—forty nine; Board No. 2—forty four.  
New Castle Board No. 1—forty; Board No. 2—forty six.

Before being called up, however, they will be given their preliminary physical examinations by their local draft boards and then classified. Previously they were first classified and then given a physical examination. Those who pass their board examination will be placed in class 1-A, subject to call whenever needed.

New Procedure  
The new procedure provides that before being inducted into the army, men in class 1-A will first report to their nearest army examination station for their final examination, during which nine doctors check their physical qualifications.

## PA NEW OBSERVES

Approximately a dozen new taxicabs passed through the city en route east today. The first appearance of the new taxicabs commanded the attention of pedestrians.

Many special programs have been arranged in the city and county for observance of the annual "Mother's Day," which comes on Sunday. Churches and organizations are arranging for special recognition.

Plans of the Boy Scouts to make a raid on the tent caterpillar nests that are so numerous throughout this district, should arouse enthusiasm. These tent caterpillars do a vast amount of damage, once they get into action on a tree.

Rain of the past two days have given an impetus to enthusiasm of "back-lot" gardeners, and indications are that a lot more gardens will now be started in this vicinity. Raising garden truck is a commendable program on the part of local residents, and under the defense program of the nation should be largely extended this summer.

## Naval Victory Is Rome Claim

(International News Service)

Sixteen British airplanes were reported shot down, while five Italian craft were lost.  
In the Aegean, the communicate added, another cruiser was set afire and listed heavily, and two additional steamers were hit by aerial torpedoes — thus bringing a single day's toll to six or seven British warships and five freighters.

WASHINGTON, May 9.—As a major part of the Western Hemisphere defense program, the United States government, it was learned today, has embarked upon a far-reaching campaign to wipe out every German and Italian air line in Latin America.

Undersecretary of State Sumner Welles is directing the diplomatic end of the drive. Secretary of Commerce Jesse Jones is providing the dollars to help finance replacement of the Axis air services.

The state department already has succeeded in taking the governments of Colombia and Peru into ousting the Nazi airlines in those countries.

Efforts now are being made to persuade Brazil, Bolivia and Ecuador to do likewise.

## President May Order Convoys

(International News Service)

WASHINGTON, May 9.—President Roosevelt will order convoys without consulting congress because of delay involved in legislation, some members of the house foreign affairs committee predicted today.

A canvass of members of the committee, which first reported the historic lease-lend bill, revealed a belief on the part of most members that the president has authority to order the navy to escort British merchant ships without seeking specific legislation.

Although Sen. George (D) Ga., chairman of the senate foreign relations committee, has voiced the opinion that Mr. Roosevelt would first consult congress on the question of convoys, many administration members disagree.

WASHINGTON, May 9.—Details of a program to cut almost \$2,000,000,000 from non-defense spending were disclosed today by members of the congressional economy bloc.

The group, moribund during recent defense outlays, has come to life because the administration has made no moves to follow up Secretary of the Treasury Morgenthau's plea for non-defense saving, members declared.

Its program has been worked out by Rep. Taber (R) N. Y., ranking minority member of the house appropriations committee, after conferences with both Republican and Democratic leaders. It contemplates a drive for the following cuts in non-defense activities:

From relief, \$800,000,000; from the Civilian Conservation Corps, \$250,000,000; from the National Youth Administration, \$75,000,000; from farm tenancy, \$50,000,000; Surplus Commodities Corporation, \$100,000,000; civilian pilot training program, \$20,000,000; and miscellaneous small cuts "from many agencies like the Federal Communications Commission, the Securities and Exchange Commission, the Federal Power Commission, etc., \$500,000,000.

## British Bombers In Greatest Raids On German Cities

Gigantic Swarm Of Bombers  
Hammers At Berlin, Bremen And Other Cities

FULL SCALE ATTACK  
IS LONDON REPORT

German Raiders Continue To  
Attack England—Many  
Planes Are Shot  
Down

By JAMES E. BROWN  
International News Service Staff

LONDON, May 9.—Gigantic swarms of British bombers—the largest squadrons ever used against the Reich—"blitzed" the major cities of Adolf Hitler's Germany early today.

Berlin, Hamburg, Bremen and Emden were among the cities attacked by long-distance bombers which included the latest imports from the United States.

It was a full-scale "blitz" onslaught, involving numbers of planes whose total number may cause a surprise when and if announced. The only official clue to the total craft used was an admission that ten British planes were lost.

Fifty Nazi Planes Downed  
Meanwhile, Britain counted a steady rising toll of German machines shot down over Britain. Since Wednesday, at least fifty Nazi machines have paid the price of assaulting this country's newly improved defenses and air fighting units.

Of this number, 12 were shot down last night alone.

Hamburg and Bremen, the most vital ports for Germany's overseas trade, bore the brunt of the Royal Air Force attack. Strong opposition was encountered, but in spite of anti-aircraft fire and resistance from Luftwaffe fighters, the British planes dropped high explosive bombs which caused widespread destruction.

Returning pilots reported great fires raging at the shipyards and in the industrial quarters of both Hamburg and Bremen.

Details Lacking

There were no details of the damage wrought in Berlin beyond announcement that the capital, as well as Emden and other targets in northwestern Germany, had been attacked.

Shipping off the Nazi coast and along the Norwegian fjords was pummeled by bombs. Off Norway, a large escort vessel was set afire and was last seen down at the stern. Aircraft of the coastal command attacked the German submarine base at St. Nazaire.

The raids, indicating the ever-increasing tempo of Anglo-German warfare, were carried out while British night fighters and anti-aircraft guns blasted 11 Nazi raiders from the skies over England.

According to latest official figures, 49 German raiders have been destroyed—chiefly by fighting planes—since Wednesday evening. This figure includes the 11 shot down last night.

In the fighting last night, the air ministry announced, one squadron of R. A. F. planes patrolling the east coast ran into a wave of Nazi bombers and within 45 minutes shot down six of them. Still others were stated to have been damaged.

Nevertheless, swarms of German bombers hammered the Humber area, the midlands and other sections of Britain, causing heavy damage and casualties in some of the sectors attacked.

German Broadcasts Of Trouble In Palestine Create Amusement In Jerusalem

### FAIL TO STIR UP ARAB UPRISING

By JULIAN MELTZER  
International News Service Staff Correspondent

JERUSALEM, May 9.—Persistent Arabic-Japanese radio broadcasts from Berlin reporting severe rioting in Palestine today aroused intense amusement among Arabs in Jerusalem, who have never been more peaceful.

In the past few days Arab soldiers in the British army have paraded through a number of Palestine towns, and everywhere they have been greeted enthusiastically by the Arab population.

The entire Palestine countryside has remained quiet during the fighting in Iraq and peasants have kept to their normal agricultural pursuits. They have found the British army in Palestine a lucrative market for their produce.

Palestine authorities expressed belief the German broadcasts reporting fictitious clashes in Palestine have been designed to stir up the circle of followers here of Iraqi Premier Rikid Ali Beg Gailani. But even this group is now reported reaching the conclusion that the Iraq flare-up against Britain is fizzling out.

EDITOR'S NOTE: London newspapers splashed yesterday's Cairo reports that Rashid Ali fled from Baghdad following a public demonstration against his regime. This report, however, has not yet been confirmed officially.

receiving their notification of induction they will immediately report to army reception centers, located at Fort Meade, Md.; New Cumberland, Pa., and Camp Lee, Va. Those failing to pass their army physical examination will be reclassified by their local board.

The experimental plan is expected to be tested in Pennsylvania for a 90-day period, said state selective service officials, who added: "We think it will prove a great success."

The benefits of the new plan were said to be threefold:

1. It would create a pool of men ready for immediate service.
2. It would do away with the numerous cases where men are called up for induction and then are found to be physically disqualified, resulting in embarrassment to the registrant and the possible loss of his employment.
3. It will give inductees a 10 to 30 day period in which to settle their personal and business affairs before being drafted into the army.

# EVANS-ROBINSON WEDDING IN CHURCH

In a pretty ceremony performed by candlelight in the Neshannock Presbyterian church, New Wilmington, Thursday evening, May 8, at 7:45 o'clock, Miss Ruth Evans, daughter of Mr. and Mrs. William Evans, Neshannock avenue, New Wilmington, became the bride of Roland Robinson, son of Mrs. Mary E. Robinson, also of Neshannock avenue, New Wilmington.

The single ring ceremony was performed by Rev. W. F. Byers, pastor of the church, before an assemblage of friends of the couple. The altar and church, beautifully decorated with lilies and the candles, provided a lovely setting for the event.

The bride, given in marriage by her father, chose for her wedding a dusty rose crepe street length ensemble, with powder blue accessories. Her shoulder corsage was of gardenias.

Betty Baker, of Volant, the bride's only attendant, was attired in a navy blue print frock with navy accessories and her shoulder corsage was of rosebuds and lilies of the valley.

Robert Johnson of New Wilmington was best man. Ushers were Charles Evans, brother of the bride, and George Robinson, brother of the bridegroom.

Preceding the ceremony, at 7:30 o'clock, a short program of nuptial music was presented by Ruth Sewall, church organist, and Robert Johnson, the latter singing two selections, "Until" and "If God Left Only You."

Immediately following the ceremony, there was a congratulatory period at the back of the church after which Mr. and Mrs. Robinson left for a short wedding trip along the Skyline Drive and through the southern states. Upon their return, they will reside at 249 East Neshannock avenue, New Wilmington.

Mr. Robinson, a graduate of New Wilmington high school, also attended Westminster College and is now associated with the Cooper-Bessmer Corporation, Grove City, Ohio. Mrs. Robinson, also a graduate of New Wilmington high school, is employed at the Strouss-Hirshberg Company's New Castle store.

Since news of their engagement, Mrs. Robinson has been honored at a number of showers and the couple has received an array of lovely gifts for their home.

## The Parent Problem

By Garry C. Myers, Ph. D.

## TRAINING CHILD MAID HAS SPOILED.

Hundreds of American mothers who can afford to have domestic help might have written the following about a 19-month-old child.

"Because he was our first child and because we had domestic help, in my ignorance I spent and am still spending every waking moment with him. Now when I attempt to leave him in a room by himself he cries, and since it is impossible to interest him in a toy before I leave the room or to persuade him to stay of his own accord, he consequently follows me. He doesn't mind in the least when I leave the house entirely, and the maid advises me that he is usually a much better boy than when I am at home! Any of the few household duties that I perform are only accomplished with great struggle and with many interruptions. He never permits me to sit down quietly to read or sew for over two minutes at a time. This is an actual fact. Now that he expects this constant attention what can we do to discourage it?"

**Demand: Ceaseless Attention.**

Please notice the "because" we had domestic help. The mother who has not is compelled to leave the little child to do for himself from five to twenty minutes, or longer, at a stretch. From 8 months to a year or more of age the child's cries and complaining may drive the mother almost frantic as she tries to finish this job or that about the house. Nevertheless, she tends to harden to it and to extend the periods of letting him wait as she grows more absorbed in getting the potatoes on to cook or the pie in the oven to bake. But if the mother has a maid to do the work about the house it is easy for the child to demand her ceaseless attention and harder for her to resist his demands. She feels that since she has domestic help all her time should be at the disposal of her child, for his best education. Her conscience hardly lets her do as she would like while this little child bids for her attention. Before she realizes what has happened she has made him entirely dependent on her for his amusement and she has made herself his slave.

**What To Do.**

Since she has no pig to bake, fish to fry or potatoes to put on to cook for a certain time, nor anything else compelling her to leave this child for a definite period, she will need to create work for herself. Let her, therefore, write out a program which will provide for intervals of time (short at first and gradually longer later) during which she will be busy—sewing, knitting, reading, playing the piano or at solitaire. Let her refuse to give any attention to the child until the end of a definite period. It might be well to have a clock near to show the child just where each hand must be before she will amuse him again.

By and by the child will discover that his cries will not bring his mother to him. Having ample toys, he will amuse himself. Let her show great appreciation of his creative efforts as she turns her attention to him.

As soon as the child can move about it will be necessary, of course, for him to have learned that there are some things he cannot do and some things he cannot have.

**Solving Parent Problem.**

Q. Can jealousy by one child of a brother or sister cause serious sleep problems?

A. Yes; and all sorts of other problems of behavior and personality as well.

Q. Is it wise to use the child's allowance as a means of discipline?

A. No; an allowance to work well must be definite like a good budget. Deduct from it for bad conduct and you upset the allowance plan and render it futile.

## GRANDPA COUNSEL

Little fellow, growing up; wonder what you'll have to do?

What the years which lie ahead hold in store for boys like you.

This is such a changing world; as you clamber on my knee.

This I wonder many a time: what your task is going to be?

Little Master, half-past two, five and twenty years away.

Men will have a place for you. At some post they'll bid you stay.

Wonder what that post will be, when you've raced your boyhood through?

Just what skill you will require for the work you'll have to do?

Little fellow, here and now let your grandpa, or so fond!

Leave a note for you to read when he's gone to what's beyond.

For whatever lies ahead, which I won't be here to see.

Be brave and willing for the task, blithe of heart and cheerful be.

There are things I cannot know, but no matter what may fall.

To your given word be true, you shall triumph over all.

Just be gracious and be kind; unto merit trust your fate.

Then go forward unafraid to whatever tasks await.

## HINTS AND DINTS

Sun sets tonight 7:02. Sun rises tomorrow 4:50.

Yes, the Hints and Dints man is going to give \$5 to every baby born in Lawrence County on his birthday, March 12, 1942.

It is claimed that it is impossible to judge either intelligence or character by a photograph. Anyhow some pictures do look more intelligent and pleasant than those of whom they are taken. Maybe because they try to look intelligent when a picture is taken and they sure do try to look prettier.

Kansas papers observe that "women's pages are now filled with suggestions of how to keep moths out of bathing suits." Since when did moths go to a diet?

Some executives get a lot of work done in a few hours, and some are kept busy using their time-saving office equipment.

Too many people listen to people who do not know what they are talking about.

We don't like to have people tell us things we ought to do and which they will not do and should do.

"Don't worry." From time to time who hasn't heard it? It is standard advice. Yet there are people who would feel pretty lonely without their worries.

"THINK IT OVER, DOC!"

Around midnight, the doctor's telephone rang, awakening him from a sound sleep. It was one of his regular patients, in a very excited state.

"My wife, doctor! It's her appendix. Better come at once!"

"The doctor sighed and grunted: 'She hasn't got appendicitis. Just give her some bicarbonate and forget about it. I'll see her tomorrow.'"

The husband pleaded that she did have appendicitis.

"She can't have," shouted the doctor disgustedly. "I took her appendix out three years ago. I never heard of anyone having two appendices."

"Ever hear of a man having two wives?" the man asked bitterly.

No doubt the people under social security will age early in life.

Pap doesn't like to have his son get the hard knocks that contributed toward Pap's success.

**HALF AND HALF.**

Lots of stories have come back about the military maneuvers held throughout the country recently. This one deals with the efforts of some privates who were being tested out for promotion and who were permitted to take companies out to drill.

One lad got the company started off in fine shape. But in a few moments an army tank crawled across the drill field and stalled in front of the marching troops. The private in temporary command scratched his head as he saw his men marching right at the tank.

It looked like there would be a collision, but just in time the private roared:

"Company, Fifty-Fifty around 'em tank, March!"

And the company obediently split ranks, half going around on each side of the tank.

Our standard of living is what we can pay for.

The way of the transgressor isn't exaggerated.

**THE COUNTER-ATTACK.**

A small freckle-faced boy walked along the dusty road, tightly grasping the rope by which he was leading a donkey. On the way home,

he passed by an army camp. A couple of soldiers, leaning on the fence, wanted to have some fun with the lad.

"Why are you holding on to your brother so tightly?" called out one of the soldiers.

"So he won't join the army," replied the youngster without blinking an eye.

When the millennium comes dwelling houses will be painted to please the neighbors.

The wise man knows when to say nothing.

Mrs. Brown—Why?

Mrs. Smith—Well, I've never gone to a bargain counter yet but she wouldn't there!

Matsuoka Should Know All The Answers  
Visit Here Might Clear Up Some Things  
Enlightenment On Russian Puzzle Sought

By CHARLES P. STEWART  
Central Press Columnist

WASHINGTON, May 9.—If Foreign Minister Yosuke Matsuoka of Japan visits Washington soon, as it is reported from Tokyo that he intends to do—if he comes and really and honestly will explain quite a few things to our own foreign minister, State Secretary Hull, he at least will satisfy a lot of curiosity on our government's part.

If his idea merely is to discuss the Axis peace proposal on the basis of German domination of Europe, except Russia, Japanese domination of the Orient, except Siberia, Soviet domination of European Russia and Asiatic Siberia, and of our reduction in the strength of our navy and our pledge to quit trying to consolidate the Americas, North South and intermediate—if that's the notion, he needn't bother to come.

What Washington's diplomacy (yes, and the bosses of our armed forces, too—especially our naval command) would mightily like to know, however, is what Russia is up to. Ambassador Oumansky, the Kremlin's representative here, doesn't tell. Considering that Minister Matsuoka was in Moscow recently, where he chatted with Joe Stalin and signed up a pact with Soviet Commissar Molotov, it's surmised that he may have an inkling as to the puzzle's correct solution.

The Russo-Jap bargain was rather friendly. That is, it was a neutrality dicker. It didn't seem as if Moscow would be adopting a semi-ugly policy toward Tokyo quite this soon.

Yet the other day the Kremlin placed a ban on the transportation of war supplies of any sort across Soviet soil, either way.

**Japan Hindered.**

This is an obvious embarrassment to the Japs, who urgently require lots of such supplies, with which to fight the Chinese, to prepare for grabs of Singapore, Malaya, the Dutch East Indies, maybe Australasia, and to arm in anticipation of a possible clash with the United States. They've been getting 'em from Germany, they've had to cross Russia, and now they're shut off.

The Russians, though, can continue supplying China with anti-Japanese arms, shipped in through the Chinese backdoor. There was a suspicion that Joe Stalin would stop it, due to the Matsuoka-Molotov agreement, but it appears that he hasn't done so. Contrariwise, China's supplies from Russia keep coming, but Japan's supplies from Germany are shut off. Isn't that queer, in view of the Tokio-Moscow deal?

But that isn't all. Russia and Germany have a pact also—rather loose, but friendly. Now Germany wants to arm the Japanese as much as the Japs want to be armed—to worry the United States into staying in the Pacific instead of aiding England trans-atlantically, and to threaten or even hop on the British in the Far East and thereabouts. Thus the Russian ban looks like a swipe at Herr Hitler as well as at the Mikado.

And Hitler's that all. Why is Joe Stalin concentrating troops, as fast as he can, along his German frontier and his frontiers with the Germanized Balkans? Well, that isn't much of a secret. He's already made it clear that he was jealous of Herr Hitler's progress to the southeastward, and it's evident that he's fearful of an out-and-out German invasion of Russia itself in the Ukraine and thereabouts. Adolf himself is suspicious of Joe's concentrations in Germany's neighborhood, for it's of record that he's asked Joe to explain them, to which Joe answered that he was sending swarms of military planes into the Ukraine to spray wheat crops with anti-insect dope during the crop-growing season. If

**ALL ABOUT "ART"**

Thomas Benton of Missouri, one of America's most celebrated painters, would like to take the capital "A" out of Art; particularly, the Art of Painting.

Instead of making people go to museums to see pictures, he'd bring pictures to the people. As far as Artist Benton is concerned, he would prefer his paintings of mountain bill-billies, tumble-down shacks of mountaineers, antiquated trolleys and a host of other picturesque items of American life—hung in saloons where they would be certain to be seen by a large number of spectators.

"If it was left to me," says Missouri's famous son, "I wouldn't have any museums. I'd like to sell mine to saloons, Kiwanis and Rotary and other Clubs, and Chambers of Commerce—even women's clubs."

But whether museums be regarded as graveyards or not, the fact is that within the last ten years all over America, the painter's art has ceased to be the highbrow's or millionaire's hobby. Through national magazines and nation-wide newspaper campaigns, millions of reproductions of great paintings of the past and present have been made available at prices within easy reach of the average man's purse, and what's more, the average man has gobbled them up. Art has climbed down off its high horse, made itself available to the man in the street, while books of reproductions have broken into the best-seller lists.

With museums or without 'em, the public is viewing art and buying it. What the special significance of all this is, we can't say, but the day when it was the monopoly of the few has definitely vanished. And this, even Thomas Benton will agree, is all to the good.

This year's oranges give us an idea. Has anybody ever tested the vitamin content of vinegar?

Question: I have been asked to be an usher at a wedding. Just what are my duties?—Bill.

Answer: You should arrive at the church about three-quarters of an hour before the time set for the ceremony, so that you may receive your instructions for seating the guests and get your boutonniere. You should greet arriving guests, offering your arm to the women and seating them according to directions—the bride's family and friends on the left side (as you face the altar), the bridegroom's on the right. If guests have no pew cards, you should ask if they prefer to sit on the bride's or the bridegroom's side. When the bride's mother has been seated (she should be the last person seated) and the processional is about to begin, go to the back of the church and take your place in line with the others in the wedding party. The ushers should head the processional. After the recessional is over, the ushers hurry back to escort to the church door the women who occupied the first pews—the bride's mother first, the bridegroom's mother next, then the other occupants of the first pews on each side. The other guests go out unassisted and the ushers then hurry to the reception. Each usher should take a bridesmaid in to the wedding breakfast and later escort her home.

## Lopsided

WASHINGTON, May 9. IF the ultimate result can be judged by the present tendency, this business of price fixing upon which the Administration has embarked is going to be an exceedingly lopsided affair—and not without its degree of national danger.

THE plain fact is that, unless Congress and the people become a good deal more alert about the kind of thing that is taking shape over here, there is an excellent prospect that after the war we may all wake up to find that a permanent governmental system by which industry can be completely controlled has been riveted upon us and a very long step taken toward that national socialism for which the souls of the more ardent and advanced New Dealers unceasingly yearn.

THE international crisis is being used by various groups centered in the Capital to cover up approaches to domestic goals which in normal times would arouse violent and very articulate resistance. The fog which attends the building of a great defense machine and the effort to equip the nation for war make it easy to take these covert steps toward a socialistic objective with slight public notice. It may well be that the price-fixing organization now in process of development will turn out to be one of the most radical of these steps.

THIS is not to say that price fixing is not a vital and indispensable part of the defense program. Everybody concedes that. Without some sort of ceiling over prices there is no prospect of a runaway and ruinous inflation, bound to be a danger to our industrial output reaches its peak, which should not be many months away. It is to say that price fixing, as the Administration appears to be planning it, may be almost as ruinous in one way as inflation would be in another. Though the experience of the past has proven—and nearly every competent economist agrees—that price control by itself is neither practical nor salutary, the present operations seem to be conducted with a complete disregard of that fact. To be

effective and healthful, price control must be linked with scientific priorities, a sound fiscal program and wage control. Those things are basic.

YET the price-fixing effort of the Administration is not proceeding on that basis. It is true that priorities of a kind are being instituted, but it is not true that there is in the making either a well-thought-out taxation plan or any effort to control wages. On the contrary, the Administration is planning to put

a ceiling over prices; but that is all. There will be no ceiling over wages unless there is a very great change of heart upon the part of those in authority. The absurdity of doing the one without doing the other seems too clear to argue.

CERTAINLY it ought to be obvious that if wages tend to go up (which is exactly the idea both of the labor leaders and their New Deal aides) and prices are held rigidly down in the end industry will be strangled under such a scheme. The point is sure to be reached where private individuals and corporations can no longer do business and the Government will have to take over. There can be no other outcome. As things stand now, apparently there is to be no linking together of prices, goods, services and finances, such as proved successful in the last World War. Instead, it is understood there will be flexible price ceiling, with penalties, fines and commandeering. There will be, it is said, no flat

freezing of all prices—and there will be no maximum limit to wages.

OF course, price control along lines such as these alarms every thoughtful man who puts his mind on the matter. But thoughtful men are not in the ascendancy here, and there is no one to check expensive and extreme experimentation. It is stated by usually well-informed persons that the present price-fixing organization will have a \$5,000,000 budget and will employ more than 1,600 men. Later, the expectation is 2,500 "spotters" will be added. If anyone thinks that a Government bureau such as that, once entrenched, is easy to abolish after an emergency has passed, he knows little of the

history of democratic government. The present price-control plan may be unsound and it may be lopsided. But of two things we can be sure: First, it will be expensive in its operation; second, that it will provide a probably permanent roosting place for a large number of political job-holders.

THERE'S a rule for your guidance you may not find in the copybooks — but that doesn't subtract one whit from its truth. Because when you buy a new car this spring you want one that will see you through many a summer. So while you're trading it's good sense to trade up — up to something solidly good through and through. Trade up, for instance, to the FIREBALL power of Buick's more efficient valve-in-head straight-eight. Trade up to the thrift of Compound Carburetion† — exclusively Buick's, and as much as 10% to 15% more economical of gasoline than last year. Trade up to a splendidous big Body by Fisher — to Buick's all-coil

springing that is forever cushiony yet forever free from service attention — to stout, ride-steady torque-tube drive with nothing about it to go wrong. Buick's bodies are roomier, its frames huskier — its steering gears go three to four times as long without adjustment and its main bearings have half-again the service life in them. Things like that really count these days — yet they're yours in a Buick for a trifle more at most than you'd spend in any event. Go call on your Buick dealer now!

Adolf believes that yarn he's pretty naive.  
**Russia Fearful**  
The best guess is that the Germans aren't particularly afraid of the Russians, but that the Russians are desperately afraid of the Germans, despite the compact between the countries. Reports, however, are that the Muscovites have been doing intensive missionary work in Poland, Yugoslavia and other vanquished or Germanly-intimidated eastern and southeastern states and that they've made plenty of converts—not necessarily that these folk want to be Sovietized, but that they're wild to r'ar up against the Nazis. Backed even by an incompetent Russia, they might, combined, be a pest to Herr Hitler, once getting 'em a-going.  
Japan presumably is afraid of the Soviet folk. To be engaged with the Chinese, perhaps with Malaya and Australasia, and possibly with the United States, and then to have Russia jump 'em from the north, would be a considerable dose for the Japs. As for Herr Hitler, they couldn't expect any help from him.  
If Minister Matsuoka would go into the subject candidly, Washington would gladly listen to him. Scarcely anybody believes he'll be candid, though. Yet he might be. If that Russian ban has made him mad enough.

## No Cantonment Sites Are Being Selected Now

Such Is Answer Given Committee From Chillicothe, O., Visiting Washington

(International News Service) WASHINGTON, May 9.—A committee from Chillicothe, O., seeking selection of Camp Sherman of the First World War period as one of the present army training grounds was informed by war department officials Thursday that no cantonment sites are being chosen at this time.

Department officials who conferred with the committee explained that there already are existing facilities to take care of an army of approximately 2,000,000 men. Present strength of the army is 1,032,500.

## Speaker Defends 'Free Enterprise'

Industrial enterprise—free enterprise—created the America of today, and not governmental enterprise, Carl Snyder, retired chief statistician of the Federal Reserve Bank of New York City, told district business and industrial leaders in New Wilmington last night.

He spoke on "The Creative Power of Capitalism" before a forum of the American Economic and Business Foundation.

Snyder said "no governmental undertaking" could have achieved the industrial America we know. He said government is "too cautious and fumbling and incompetent in the larger sense."

Miss Anna Mae Fulkerson, Ellis Way, who recently underwent an appendicitis operation in the Jameson Memorial hospital, is recovering.

## Civil War Veteran 102 Years Old Is Summoned By Death

(International News Service) PITTSBURGH, May 9.—William F. Hite, 102, McKeesport's last Civil War veteran, died at his home Thursday as the aftermath of a slight stroke suffered at his home last March 27.

Born in Lancaster County February 2, 1839, Hite had been a resident of McKeesport for 81 years. His father, William F. Hite, was born in Switzerland and had lived to 107.

The aged veteran was able to relate many experiences of Civil War days during which he was wounded at Romney, Va. He had been with General Philip H. Sheridan in raids on the Shenandoah Valley. He once recalled having stood on a scaffold in Virginia charged with being a spy and then having his life saved by the intervention of Gen. Stonewall Jackson.

Gomer Lewis, of East Washington street, who had been ill with grip at his home, is much improved.

## Masked Rider Of Screen Is With Wallace Brothers Show

Pictures above is the celebrated screen star, Lee Powell, who portrayed the part of "Allen King" in the original talking picture "The Lone Ranger" and was again recently seen in the silver screen thriller "Hi-Lo Silver". Riding in person with his own congress of rough riders the famous star will appear at afternoon and evening performances of Wallace Brothers Circus in New Castle on Monday, May 12.

Never before in the history of tented annuals has there been a greater assemblage of thrills, stars and marvelous wonders of the land of make-believe been gathered together and presented at such moderately low prices as will be seen with the all new Wallace Brothers Circus when it offers two performances scheduled at 2 and 8 p. m. rain or shine, in New Castle on Monday, May 12 upon the Mahoning at Cedar street show grounds.

appearing for the first time in America direct from European conquests will be the titan haired aerial star, Miss Emma Ward, acclaimed the undisputed "queen of the air" who when suspending herself by one arm high in the dome of the big tent, throws her body more than 100 times over her right shoulder.

The Flying Hartzells, sensational troupe of aerialists who feature Tommy doing a triple mid-air twisting somersault from one trapeze to another.

Ross, Rosa & Ross, a trio of expert head balancers, offer a novel exhibition of peerless feats. The Arley Troupe, famous equilibrists and perch pole dare-devils have this year eclipsed all similar troupes in accomplishing unbelievable spine-tingling thrills. The Great Enos, orient foot jugglers, and the internationally renowned Enos-Hai-Chaik Troupe have combined their efforts to present what is acclaimed the most remarkable act ever brought to this continent. Capt. H. C. Pickard, who is appearing with the Wallace Brothers for the first time, has recently returned from the Coronado Isles with a troupe of educated seals and sea lions.

An army of clowns headed by Ed Raymond, clown prince of fun, will offer the very latest in mirth-provoking antics. Captain McDonald, who has charge of the 40 tons of performing elephants, has trained these ponderous creatures to do many tricks that have been un-

known to any elephantine artists. Forty-three pretty equestriennes appear in one massed revue of equine beauty.

Heading the vast array of wild west features will be Lee Powell, who rode his way into the hearts of

oldsters and youngsters all over the world by his thrilling escapades upon the silver screen. His recent motion picture work will be remembered in "Hi-Lo Silver" and he played the part of Allen King, the original talking picture "Lone Ranger" and has been featured in 42 different motion picture epics. An entire congress of rough riders from the golden west headed by the king of cowboys, Ted Lewis with his Oklahoma Ranch cowboys and cowgirls add to the thrills of what is believed the greatest show coming to this territory this season.

## Buchalter Faces Charge Of Murder

(International News Service)  
NEW YORK, May 9.—Louis (Lepke) Buchalter, once the nation's No. 1 racket czar was smuggled into New York Thursday from Leavenworth penitentiary, heavily guarded by U. S. marshals. He will be arraigned tomorrow in Brooklyn charged with the murder five years ago of Joseph Rosen, a witness before the grand jury investigating rackets.

Lepke is serving a long term in the Federal penitentiary for violation of the narcotic laws but the government permitted District Attorney William Dwyer to move against him in the old first degree murder case. Dwyer will seek to send the racketeer to the electric chair.

## TRAFFIC DELAYED WHEN AXLE BREAKS

Highland avenue street car traffic was tied up for more than an hour last night when an axle on a car,

journeying down the hill, broke. The operator was D. K. Frazier. There were no passengers on the car. A wrecker was secured and the crippled car was towed to the car barn.

Organization of a Council of Defense in Lawrence County will likely be started by the county commissioners acting with other local government officers in the near future. Commissioner Joseph F. Travers represented the Lawrence County board of commissioners at the meeting called in Harrisburg on Thursday.

Since his return Mr. Travers has made a report of the meeting to his colleagues. Under the plan of the State Council of Defense, a council will be developed here. In the organization will be men and women of all political faiths, business and professional training.

The purpose of the local councils of defense is to be ready for any eventuality which might arise.

In the report of Viewers Ivor V. Davis, Homer C. Drake and W. Leslie Wilson, the idea of a bridge across the Nesquehanna creek near the foot of Mercer street is endorsed, the opinions of the three viewers being the same.

This report will now go to the June grand jury for consideration. Proponents of the bridge will probably be present to give reasons why the bridge should be built and opponents to give reasons why it should not.

After considering all testimony the grand jury will hand down its findings, either for or against the bridge idea. This opinion of the grand jury then goes to the county

commissioners but the opinion does not bind the commissioners.

The June term of criminal court won't take long. Thus far there isn't a case in the offing that will take long to dispose of. Practically all of them are misdemeanors of the mild type.

## FIRE DESTROYS LANDMARK

(International News Service)  
BOWDOINHAM, Me.—The Fisher Tavern, historic landmark on the road to Brunswick, was destroyed by a blaze started by a grass fire. The building was used as a changing place for horses when stage coaches were the only means of public transportation between Brunswick and Gardiner.

If one cent had been invested in the year 3041 B. C. at 5 per cent simple interest, it would be worth only about \$2.50 today. However, had it been invested at 5 per cent compound interest, the value today would be \$1,329,212, followed by 96 ciphers.

## TAKE OFF UGLY FAT

3 to 5 lbs. a week yet EAT plenty  
No Drugs—No Exercises

Men and women all over the United States are reporting remarkable results in losing weight. Many tell of reducing 30 pounds a month—and more. These people are following the Plan of Dr. Edward Parrish, noted physician, former Health Officer, State of New York, Surgeon-in-Chief Medical Staff, United States Army Editor, Lecturer.

Dr. Parrish's Napoleonic Reducing Plan makes reducing a pleasure. A pleasure because it allows you to EAT PLENTY, requires no exercise. Absolutely safe, too, because it calls for no reducing drugs, no loss of vitality.

Here is Dr. Parrish's Napoleonic Reducing Plan EXACTLY as given by him over the air to millions: for lunch take 2 teaspoonfuls of Cal-Pal in a glass of tomato or pineapple juice, or any favorite beverage. Take nothing else for lunch except a cup of coffee if desired. For breakfast and dinner EAT AS YOU USUALLY DO. Don't cut out fatty, starchy foods—just cut down on them. Try Dr. Parrish's Napoleonic Reducing Plan for at least one week! You and your friends will be amazed at the vast improvement in your figure.

Cal-Pal is a cereal-like special purpose food containing health-giving calcium, iron, phosphorus, Vitamin D, also additional quantities of other essential vitamins. Get a can today, plain or chocolate flavor.

"Made Me Feel Like a Different Man"

Retonga continues to win friends in Pittsburgh. Mr. Patrick Hennessey, well-known home-owner of 2219 Wilson Ave., Pittsburgh, and for twenty years a valued employee of the B. & O. Railroad, gives Retonga the following grateful endorsement:

"I suffered so bad with acid indigestion I hated to eat at all. Gas often bloated me until I was miserable. Like lots of railroad men, I suffered badly with constipation, and consequent toxic pains. I would come home from work at night feeling completely exhausted. Retonga brought me wonderful relief. I can eat anything I want without distress. I have regular movements, and I sleep fine. I feel so much better a hard day's work doesn't tire me out. Retonga made me feel like a different man."

## Birthday Luncheon Enjoyed By Girl Scout Organization

Reports On Conference At  
Roanoke, Va., Given By  
Guest Speakers At Event

Thursday at noon, leaders, committee and council members of the Girl Scouting organization of this city gathered at The Castle for their birthday luncheon, honoring 14 years of organized scouting in New Castle.

The luncheon was an informal event, opening with the flag ceremony, with Betty Ward, Elizabeth Solomon, Elveta Miles and Jane Coates participating. "America the Beautiful" was sung, and following the delicious dinner was enjoyed. Favors marking places of the group were made by Troops 7, 24 and 28.

Upon completion of the meal, Mrs. C. M. England, commissioner, extended greetings and welcomed the assembly. Miss Regina Popp, general chairman, spoke on the conference and the tea which the local group attended while down in Roanoke, Va. Miss Popp also commented on the traditions of gracious living in the south, and spoke on the places that tie with the early history of our country.

Mrs. George Ward, the next speaker, spoke of an informal evening at the conference. She spoke briefly on the southern hospitality shown at the banquet in the evening and the entertainment typical of the various peoples. Mrs. Ward also mentioned the negro spirituals, mountain songs by the Carolina mountaineers, mountain dancing under the guidance of a traditional caller, mountain music, and the minstrel danced by scouts in the traditional costume of a bygone era. In this friendly and informal setting, rich with history and tradition of the early life of this country, some 400 members of Regional Three tried to ascertain the place of girl scouting today.

Against this background of tradition, Miss Helen MacLean, Girl Scout director and principal speaker, presented the results of a two-day conference on girl scouting and today's need of the job which is to be done. To preserve our democratic way of life against the shifting background of mass migrations and of constantly changing social and economic values. The main division was the analysis of the ways and means which we honestly and specifically offer assistance and training to girls and adults in doing this job. How we can more effectively make practical applications of our ideals and principles and translate them to action in our individual communities. "For democracy was born in 1776, a conception and idea to be tried, tested and worked over by each succeeding generation. It is a job for us to do, not a static fact, and we must add our something to it."

## DAILY DOZEN

(From the Medical Society of  
the State of Pennsylvania)

The ancient Chinese knew the medicinal value of bananas and apples.

Modern medicine has re-discovered these truths and found them good.

Banana may now be prescribed for infants 5 or 6 months old with stomach disorders.

Raw apples are given children suffering from diarrhea, or summer complaint.

What factor in an apple gives this healing power?

There are in reality four main groups of beneficial ingredients.

Tannic acid, acid content, pectin and cellulose.

Pectin and cellulose are given the most credit in forming a gummy solution found in jellies.

Pectin is used in treating both diarrhea and constipation.

It is also used in the treatment of burns and bone marrow inflammation.

Pectin-agar with sugar is prescribed in cases of Diarrhea among infants.

## Business Outlook Is What We Make It Is Babson's Opinion

(By ROGER W. BABSON)

BABSON PARK, Mass., May 9—This is a time when readers should quit arguing and get down to business. If you have a farm, live on it and watch it. If you have a store, be in it every minute that it is open and attend to your customers as you never have before. If you work for someone else, give better service than you have ever given in years past. There is no use talking now as to what will happen after the war.

Between now and then, we should see a gradual strengthening in commodity prices, productive real estate, and employment. With this thought in mind, we should forge ahead. Of course, some time there will be another depression—perhaps worse than the last one—but this is some years ahead. Moreover, when it comes its duration will depend largely upon how we act during the next year or two. If we attend to business, get out of debt, and have faith in one another, we should have nothing to fear.

**Germans Work Together**  
Let us learn something from Ger-

many. Noted always for their industry, the Germans have to date surpassed all previous attempts at organization, efficiency, and thrift. Certainly, Germany has secured the solidarity of her citizens. In our determination to help Great Britain, we must not forget there is a happy medium between ruthless autocracy and wasteful democracy.

All German life has long been subordinated to the good of the nation as a whole. Hitler has been tough. Standards of living, wages and hours, and other factors in the lives of the German people rank ahead of individual desires. Above all, discipline has been intensified and maintained. This last is not one of our own national characteristics. It was conspicuous by its absence in France and contributed to her downfall.

### Let Us Wake Up

In the "Arsenal of Democracy" role our country is playing, our program of defense and aid is seriously bogging down. This is not due so much to bottlenecks, strikes, priorities, lack of machine tools, skilled workers, etc., as to a lack of appreciation on the part of our people as to the seriousness of the situation. The commonly considered hindrances are largely of a "mechanical" nature. They should all, including the strikes and shutdowns, be cleared up in short order. The

real bottleneck is our spiritual attitude.

There is too much of a tendency to believe that should Hitler defeat England that the affairs of our own country would remain relatively unchanged. Isolationists believe that instead of our trading with London, our relationships would simply be transferred to Berlin. Unfortunately, the problem is not so easily solved. Should Hitler gain and remain in control of Great Britain, the Northern Countries, the Continent of Europe, Africa, and of the Middle East, we would become a second-rate power and be dependent upon him—invasion or no invasion.

### Watch The Politicians

As a guide to public opinion, the way our Senators and Representatives vote is worth considering. Senator La Follette is very close to the President, yet he strongly opposed him when the Lease-Lend Bill came up. The Senator knew that the majority of his constituents were not in favor of the passage of this legislation. Not alone in Wisconsin, but in Minnesota, Illinois, and Iowa, the people were generally opposed to this bill. This does not mean that the Middlewest is in love with Hitler's form of government. Rather, it is either concerned over the proper way to defend this country and uncertain as to the step to take, or else it lacks courage and a willingness to sacrifice for the common good.

Except for a few die-hard isolationists, our representatives in Washington are alive to our unpreparedness and to the necessity of aiding Britain and her Allies. Yet, they are put into office to represent and interpret the wishes of their electors. Hence, the position they take upon matters of national policy constitutes a good barometer of sectional belief and public opinion. My advice to the members of Congress, however, is to get back

home more often and personally tell the voters "what's what."

### Unite and Serve

Only a little more than a year ago Hitler struck at Norway. His progress to date in spreading disaster is shocking in its threat to the American way of life. Perhaps for us to realize this menace and the necessity for cooperative thinking and action, the sinking of one of our own warships will be necessary. Whatever this might hold for us and for our good neighbor, Canada, we will, as individuals, rise or fall together.

We talk of our ideals and beliefs, yet shut our eyes and plug up our ears to the real sights and sounds of the day. We seem mainly interested in acquiring and spending the new-found wealth that the defense program is bringing. As a nation, we must wake up. Unfortunately, through lack of individual responsibility, we may be smashed economically if not physically. Our deficiency of spirit may lead to our disintegration. We must all speak up for righteousness, heed the call to sacrifice, and toil to the limits of our capacities whether we be a workman, banker, farmer, or housewife.

**Demand County  
Offices Be Open  
8:30 A. M. To 5 P. M.**

(Special To The News)

MERCER, May 9—The Mercer County Bar Association has petitioned the court to issue an alternative mandamus on all county officials to show cause why their different offices should not remain open continuously from 8:30 a. m. to 5:30 p. m. each day excepting legal holidays commonly observed by the public, and on Saturday afternoons in order that the attorneys and general public may have access to the records of Mercer county during the customary business hours of Mercer county communities. The writ is made returnable to the first Monday of June, when each of the officers appear and show cause why the office hours should not be restored to 8:30 a. m. and 5 p. m.

The closing hours of the court house has been a controversial between the attorneys and officials over a period of several years, and in 1930 Judge James A. McLaughry issued a declaratory judgment fixing the closing hour at 5 p. m.

## College Audience Hears R. Metcalf

**Rotarians Send Five To Kane  
—Other News Of Col-  
lege Town**

(Special To The News)  
NEW WILMINGTON, May 9—In a lecture given in the chapel of Westminster college Wednesday

evening, Robert Metcalf, noted authority on stained-glass windows, told of precautions taken by French cathedral authorities at the outbreak of hostilities in 1939.

"The priceless windows are taken out piece by piece," said Mr. Metcalf, "and are numbered and stored in the crypt of the cathedral."

The lecture featured colored slides taken by Mr. Metcalf and his wife during a trip through France and Germany just before the Munich conference.

Five members of the local Rotary club are attending the district conference of the Rotary International

held in Kane this Thursday and Friday. They are President-elect Howard Temple, Raymond Meek, Elmer Newton, Harold Burns and Ross Ellis.

At the last meeting of the club, W. R. Biggs, publicity director of Westminster college, showed movies of New York. Also, a project by which the men of New Wilmington would raise money to provide materials for the women who are working for the Red Cross was discussed.

At a recent meeting of the New Wilmington town council, Robert Eagleson and Lawrence Shaffer

were appointed to the posts of life-guard and caretaker, respectively, of the local swimming pool, which will open in a few weeks. Eagleson will graduate in June from Slippery Rock State Teachers' college, and Shaffer is a senior at New Wilmington high school.

At the regular meeting of the Wilmington Grange held Thursday night, John Riley, of New Castle, showed entertaining sound films.

## STOCKS

**Market Tone Is Steady Today**

Price Changes Extremely Small, Trading Continues Dull, Some Irregularity

(International News Service)  
 NEW YORK, May 9.—The stock market today presented a generally steady tone, although some irregularity ruled in special sections. Price changes were extremely small and trading continued dull except for a flurry of activity at the opening.

Steels were spotty at the start but firmed later in the first hour. Bethlehem, U. S. Steel, Crucible and National all were fractionally higher.

Similar gains were chalked up by most of the pivotal rails, as Santa Fe, N. Y. Central, Great Northern and Union Pacific, Rubbers, coppers and chemicals also showed modest improvement from previous closing levels.

## MINSTREL SHOW AT UNION HIGH

Dancing Chorus Groups Score  
Hit In Student Musical  
Production

Mixing a bit of the old time minstrel show with parts of a popular music and dance revue, students at Union township high school scored a hit with a modern minstrel show, Thursday evening.

The show was divided into three parts. The first act opened with a typical minstrel set-up with the minstrel circle and comic end-men. With Bernard Kielar as interloctor, the following end-men and he exchanged volleys after volleys of witty remarks: Joe Mitchell, Geary Sagabell, George Munn, Vernon Rumbloom, Edward Reynolds and Guy Bailey.

Students taking part in the singing minstrel circle included: Wilbur Abbott, Earl Cumberledge, Paul Allen, Robert Jones, Hubert Dougherty, Tom Wallace, Lewis Cover, Bill Hanna, Jack Donley, Paul Dougherty, Neal Lowers, Frank Kline, Charles Johnson, Ray Wilson, Willis Long, Clark Long, Ralph Stickle, Ray McKinney, Eugene Hanna, Eugene Hoover, Durwood Jones, William Hille, Bob Welker, Frank Cover, Helen McClenahan, Pauline Williams, Berdina Mrozek, Peggy McCombs, Doris Vanatter, Naomi Cameron, Charlotte Pagley, Carrie Heckart and Margaret Heim.

Vocalists for the program were: Marian Reynolds, Barbara and Pauline Griddle, Frank Verdi, and Frances Boron.

Led by Norene Buchanan, who the program labeled, "Torchy", the Union High Rockets, another dancing chorus performed with a bit of precision dancing. Chorus members were: Clara Pilch, Kate Mulcahy, Ada Ketzal, Esther Davidson, Hazel Crum, Dora Williams, Margaret Montabon, Helen Williams, Dorothy Patch, Marian Reynolds and Eleanor Montgomery.

Edna Jean Usselson entertained with a very professional appearing South American Conga, under the name of Conchita.

Majorie Betty Kerr and her dancing cadets injected a little patriotic spirit in the program with their military step. They were: Zetha Siegal, Helen McConnell, Anna Leasure, Eileen Crable, Norma Thatcher, Fern Hoover, Juanita Skaggs, Dorothy Ames, Mae Trizzo, Mary Caligore, Grace Leasure, Dorothy Pauline and Margaret Thompson.

Diners who made up the ship-board vocal chorus were: Louise Phillis, Marion Kuhn, Ruth Baird, Margaret Peden, Betty Baird, Janet McClung, Martha Boyd and Helen Anderson.

Dewey Dewberry furnished piano accompaniment for the entire program. Orchestra music was furnished by the high school orchestra under the leadership of Richard M. Patterson. Mr. Patterson also staged and rehearsed the entire production.

The entire show will be presented again tonight at the school beginning at 8:15 o'clock.

Gradually the conviction is spreading throughout the United States that the nation may have to use some of the tanks that it is building.

Over Half Million  
Troops Will Share  
Big ManeuversMost Extensive Peace Time  
Maneuvers In Nation's His-  
tory Are Arranged

BULLETIN  
(International News Service)  
WASHINGTON, May 9. — The army will put more than 550,000 troops into the field starting late this month for the most extensive peace-time maneuvers in the nation's history, it was announced today.

Maj. Gen. R. C. Richardson, Jr., chief of the army's bureau of public relations, who held a press conference in the absence of Secretary of War Stimson, explained that maneuvers for the summer and fall will begin when troops of the ninth army corps of the first army go into the field at Fort Ord and Camp Hunter Liggett, Calif., May 24.

Richardson said that in the fall, combined units of the four armies, including armored divisions, the GHQ air force, tank and—for the first time—parachute units, will hold large-scale combat maneuvers in Washington, Louisiana and North and South Carolina.

Richardson explained the maneuvers will progress in size until they reach two climaxes. The first climax, he said, will be when units of the second and third armies oppose each other at Beauregard, La., September 1-30.

The second climax will be when units of the first and third armies engage in the Ft. Bragg-Ft. Jackson area in North and South Carolina, November 3-30. Gen. George C. Marshall, army chief of staff and commander of general headquarters, personally will direct the two final maneuvers.

Richardson announced that the fourth army will hold separate maneuvers in the Fort Lewis, Wash., area August 15-30, during which the seventh and 40th divisions of the third army corps will oppose the third and 41st divisions of the ninth corps.

He said hundreds of civilians will participate in combat problems as airplane spotters. In addition to the 550,000 troops that will participate actively in the army maneuvers, more than 800,000 others will be in regularly scheduled mobilization training, or manning the services and temporary and permanent army establishments, Richardson said.

ANNE R. MCCLURE  
RECEIVES ART AWARD

Anne R. McClure, of New Wilmington, has received word that her painting, "Still Life," was awarded the second prize for oils at the Third Annual Exhibition by artists of West Virginia, Virginia, Ohio, Pennsylvania, and former members of these states, which was recently sponsored by the Parkersburg Fine Arts Center.

The painting was recently exhibited at the New Wilmington Art

Exhibit, and the Beaver County Art Show, winning blue ribbons at both shows. The last award she received at Parkersburg was fifty dollars.

Miss McClure is art instructor at the Arthur McGill school in this city.

One more sad score for wishful thinking. The Greeks wouldn't let English troops land in time for fear of offending Germany.

If he tries to "hear" Knudsen, he is a jealous little New Deal theorist who hates to see anybody else have authority.

# Hull Tells Naval Chiefs Of American Republics That All Must Cooperate

(International News Service)  
WASHINGTON, May 9.—Secretary of State Hull told naval chiefs of eleven American republics that the nations of the western hemisphere must "collaborate and cooperate in every possible way" against every possible danger of aggression.  
Receiving on Thursday in the diplomatic ante-room of the State Department the Latin-American naval officers who are here on a good will tour of the United States, Hull warned that the "common danger" has no geographical limits in its ultimate objectives.  
Declaring that a threat to the safety of any one of the 21 American republics constitutes a threat to the safety of all of them, Hull said: "We shall have a common objective in resisting a common danger."  
Danger Is Real  
Hull added that for some years many statesmen and army and navy officials minimized this danger but, he added, "new developments of unprecedented nature which signify a world wide movement of conquest have brought more sharply to each the actual danger not only to one but to all of the American republics."  
The text of Hull's statement to the Latin naval chiefs read as follows:  
"I am very pleased to welcome you. If our naval forces need simulation more than they have been simulated, they would get it from

contacts with you. I know it will be a source of pleasure and satisfaction to all of our officials to extend every possible courtesy and facility to you. You come here not only at a most interesting but a most important time from the standpoint of our mutual welfare and safety.  
Safety Of All  
"I have for long years emphasized in conferences here and with you in Latin-America the viewpoint that any threat to the safety of any one among our 21 republics was a threat to the safety of all of them. For some years that was minimized by many statesmen and even army and navy men but new developments of unprecedented nature which signify a world wide movement of conquest have brought more sharply to each the actual danger of threat not only to one but to all the American republics.  
"As we see this threat of danger, the more important we find it to collaborate together and to cooperate in every practical way for the purpose of increasing the effectiveness of our agencies and the means of common defense against the common danger which has no geographical limits in its ultimate objectives. We shall have a common objective in resisting a common danger.  
"I wish each of you a most satisfactory visit. I am sure we shall profit from this exchange of ideas as much if not more than you."

## Overlook To Observe Anniversary Along With Hospital Day

New Wilmington Sanitarium  
Established Thirty Years  
Ago By Dr. McLaughry

Open House will be observed at The Overlook, at New Wilmington, Monday, May 12, from 2:30 to 5 p. m. and 7 to 9 p. m., in connection with the observance of National Hospital Day.  
This particular day has been selected because it is the birthday of Florence Nightingale. It is doubly significant at The Overlook, because it marks the 30th anniversary of the opening of this sanitarium.  
Built 30 years ago, its doors were opened for the first time on June 7, 1911. It was founded by Dr. Elizabeth McLaughry, who was at that time a practicing physician in the city of New Castle. During the years, it has become famous

throughout the nation, serving the needs of doctors and patients from practically every state in the union.

## YOU'RE ENTITLED TO HAVE YOUR COFFEE CUSTOM GROUND

If you're going to get the full fine flavor out of coffee—and that's what you pay for—then your coffee must be ground to just the fineness required for your type of coffee pot. Or—to use the A&P term—it must be *Custom Ground* for you. Here's the reason: The different types of coffee pot bring hot water into contact with coffee for different lengths of time, as follows...

In *Regular Pots*, boiling water is in constant contact with coffee... hence, you should have A&P Coffee ground *coarse*. Percolators force the water over coffee only intermittently... so have your A&P Coffee ground *medium*. In *Drip Pots*, water goes through the grounds only once... so A&P Coffee should be ground *fine*. In *Vacuum Pots*, the contact of water and coffee is briefest of all... so have your A&P Coffee ground *extra fine*.

Be sure to tell the clerk in your A&P Coffee Department the type of coffee pot you use—then the fresh coffee beans will be *Custom Ground* exactly right, so that you'll get all the magnificent flavor.

There are three A&P Coffee blends to suit every taste; Eight O'Clock, mild and mellow; Red Circle, rich and full-bodied and Bokar, vigorous and winery. Try your favorite blend today.

## First Two-Day Field Exercises For 190th Field Artillery For Camp Shelby

(Special To The News)

CAMP SHELBY, Miss., May 6.—

The biggest battle with the biggest  
guns in Camp Shelby was fought  
in the DeSoto National Forest ad-  
jacent to the camp area last week  
when the 190th Field Artillery had  
its first two-day field exercise.

Firing was only simulated, and  
enemy troops were imagined, but  
the big guns, the tractors to move  
them, the communication lines, the  
fire control instruments, the maps  
and charts: all the complex appur-  
tenances of a regiment of heavy  
artillery were present and employ-  
ed.

Also there were the selectees,  
trained in field exercises with the  
earlier inducted portion of the re-  
giment for the first time since their  
arrival April 3. Reports indicated  
that they operated and bivouaced  
like seasoned soldiers, and that their  
training by non-commissioned of-

ficers in the rudiments of the mil-  
itary has been satisfactory.

With the first day of the exercises  
devoted to maneuvers by the two  
battalions, Colonel Samuel B. Wolfe,  
his staff and Regimental Headquar-  
ters Battery moved into the area  
and set up their positions in an  
after-dark blackout. Telephone  
lines were strung during the night,  
ready for operation the following  
morning.

Such communication, the function  
of headquarters batteries, is one of  
the most important factors in the  
firing of heavy artillery, according  
to Colonel Wolfe. Everything de-  
pends on efficient communication,  
he said. "In artillery the gunners  
do not see their target. After ob-  
servation by special devices it is  
plotted on a map or chart. Then  
the firing data is computed—hor-  
izontal and vertical angles and dis-  
tances—and it is telephoned to the

guns. They are laid on the target,  
and bang, you have it."

That the communications of the  
190th Field Artillery are working  
efficiently was proved by the tele-  
phone call made by Lt. Colonel N.  
J. Sepp, executive officer from  
Pittsburgh, to Captain Thomas G.  
Lewis, Lewisburg, plans and train-  
ing officer. This call, according  
to the communications section, had  
to travel through six connections  
and four switchboards, all erected  
temporarily in the pine forest, be-  
fore it was completed successfully.  
Lt. Charles S. Wiggins, Altoona, is  
regimental communications officer.

The regiment returned to its  
home area in Camp Shelby the  
morning of the second day, after  
having completed its imaginary  
missions of interdicting road junc-  
tions, neutralizing enemy batteries,  
and destroying enemy tank con-  
centrations.

### TREATED AT HOSPITAL

James Messina, little son of Mr.  
and Mrs. Pete Messina of Hillsville,  
was treated at the Jameson Mem-  
orial hospital Thursday afternoon at  
5:20 o'clock, for an injury to his  
right wrist, suffered Monday when  
he ran a stick into it while at play.

less criticism of officials, whether  
they serve local, state or federal  
governments.

## Sabbath School Committee Meets

Plans Are Discussed For Coun-  
ty Convention To Take  
Place June 12

Regular monthly meeting of the  
executive committee of the Law-  
rence County Sabbath School as-  
sociation was held at the First Baptist  
church Thursday evening, with the  
president, Robert M. Strickler, Jr.,  
presiding, and the following mem-  
bers present: Vice president, Homer  
C. Drake; secretary, Mrs. H. F.  
Magill; children's superintendent,  
Miss A. Pearl Hockenberry; Mrs. D.  
W. Nesbit, state convention chair-  
man; president Ellwood district, G.  
C. Denniston, and Mrs. Denniston;  
president Wampum district, Walter  
Guy; president Wilmington district,  
E. B. Reed; president Pulaski dis-  
trict, Albert Chapin, and Rev. Frank  
Hollinshead, pastor First Baptist  
church, as a guest.

The chief matter of discussion  
was the coming 93rd convention of  
the Lawrence County Sabbath  
School association, which is to be  
held at the First United Presby-

terian church, New Castle, Thurs-  
day, June 12. The Sunday schools  
of the various districts will be visited  
in order to stimulate attendance.  
Mr. Chapin reported Pulaski dis-  
trict convention to be held this  
month, also a missionary conference  
and leadership training school held  
recently. Mr. Denniston reported Ell-  
wood district convention to be held  
May 16th, and Mr. Reed reported the  
Wilmington district convention to  
be held in June.

It was reported that the quota of  
campers to attend Camp Kanastota  
is 15, and that these will be ap-  
portioned among the various districts.  
More than quota may attend if ar-  
rangements are made.

bathing pool again this year. Coun-  
cil has accepted the recommen-

pavilion. He will pay the city \$700,  
for the season. Ernest Eckert will

ilege, according to contracts approved  
by the commission and council. Paul  
Marakas will operate the restaurant  
although this deal has not yet been  
finally closed. An offer to rent the  
Community auditorium or theater  
for summer boxing which will re-  
quire additional seats is being con-  
sidered.

Wayne Sines, radio technician in  
the police department, will not have  
to join the colors having been found  
with poor eyesight by a navy eye-  
aminer.

## Soose-Overlin Fight Tonight

Former Penn State Boxer And Farrell Boy Favored To Take Middleweight Championship

By LAWTON CARVER  
(International News Service Staff Writer)  
NEW YORK, May 9.—The odds today were 8 to 5 that Ken Overlin, pugilism's ancient mariner, will be stranded high and dry tonight by Billy Soose of Farrell, Pa., when they tangle up before an expected \$40,000 house for Overlin's New York boxing commission middleweight title. If this eventuality works out in keeping with the experts' pre-battle forecasts Overlin can blame himself for it. No champion of recent vintage has worked an opponent into a greater rage than Soose will carry into the Madison Square Garden ring.

This is all quite on the level, and Overlin himself is in a bit of a peeve at Soose to make the thing some sort of a grudge fight, or has that angle been over-worked?

Disputed Decision  
In any case, they stirred up each other's ill will last July when Overlin lost a heatedly disputed decision to Soose, leading to pointed remarks by both.

But the payoff, in a manner of speaking and literally, will come tonight for Overlin due to the financial arrangements under which the bout will be fought. Soose was forced to do everything but mortgage himself to get his title crack at Overlin in this return bout earned by virtue of his previous victory.

Specifically, Overlin is taking 42½ percent of the net and Soose is being made to settle for 12½.

## Church Softball Session Tonight

There will be a meeting at the "Y" tonight of all churches interested in the formation of a New Castle church softball league at the "Y" at 8 o'clock.

All churches wishing to enter teams must have representatives present at the meeting with credentials from the minister of their respective church. Bill "Butch" Winters, physical director of the "Y" will have charge of the meeting.

## Braves Release Wesley Ferrell

(International News Service)  
BOSTON, May 9.—Wesley Ferrell's long major league career seemed at an end Thursday as the Boston Braves handed him his outright release.

The Braves also released Rookie Catcher John Stats on option to Hartford in the Eastern League and acquired Lloyd Waner, veteran outfielder, from Pittsburgh in a straight swap for Pitcher Nick Strincevich.

The Red Sox also moved to get down to the player limit of 27 by May 15 by shipping Cecil Hugheson, right hand pitcher, to Louisville in the American Association on option.

The Braves will decide on the future of Pitchers George Barnicle and Al Piechota and Outfielders Clarence Bray and Mel Preibisch on the next road trip.

## Whirlaway Runs In Preakness Race

(International News Service)  
BALTIMORE, Md., May 9.—With Anthony Pelliccioli's colt Kansas added to the field, eight probable starters were listed today for running of the Preakness tomorrow.

Despite a threat of rain and a muddy track, Whirlaway, the horse that set a new record in winning the Kentucky Derby last Saturday, is expected to go to the post at even money.

Other probable starters and their odds, beside Whirlaway and Kansas, a 50 to 1 shot, are:

Porter's Cap, 4-1; Our Boots, 6-1; Curious Coin, 7-1; Ocean Blue, 8-1; Dispose, 12-1; and King Cole, 20-1.

## Elder A. C. To Have Meeting

The members of the Elder A. C. baseball team will have an important meeting tonight at 5:30 o'clock at the club-house. It was announced by Manager Joe O'Leary.

All of the players who intend to be on the Elder roster this season are asked to be present without fail. Uniforms will be issued and plans made to open the City League this coming Sunday when the Elders will play hosts to the Slovaks at Marshall field.

## First Christians Lead Church Loop

The First Christians took over the leadership in the New Castle church golf league at the Castle Hills course last night, winning from the First Methodist team 6 to 0, to give them 19 points for the two matches played to date. The Mahoning team, leader the first night, won from the St. Marys team 5 to 1 and is now in second place with 9½ points.

Medalist last night was Frank "Shine" Platek with a 37 card, followed by George Sargent shooting a 38 and Tucker Hockman also having a 38, with George Shook recording a 40 and Gene Kiker a 43.

The results last night: Mahoning 5, St. Marys 1.  
First U. P. 3, First Presbyterians 3.  
Temple Israel 3½, Epworth 2½.  
First Christians 6, First Methodist 0.

## Water Snake War Here On Saturday

Boy Scouts and members of the Lawrence County Sportsmen's Association will pool their efforts Saturday in a gigantic war against the arch enemy of game fish—the water snake.

Scouts and sportsmen are cautioned not to kill beneficial reptiles, such as a black snake, also known as the pilot and blue racer. The garter, the ribbon and grass snakes are also efficient destroyers of insects and rodents and should be given the utmost consideration.

The water snake hunters are requested to use a forked stick and a light club so as to avoid handling the reptiles.

**DISLIKES NO. 3.**  
(International News Service)  
CHICAGO—No. 3 on his uniform doesn't appeal to Phil Cavarretta of the Cubs. In fact, he asked to have it removed from his uniform, because while wearing it last season and the season before he sustained a broken leg, the same fate which befell Rip Collins who wore the number in 1939.

## Yankees Again Defeat Indians

Score Is 5 To 4, Dodgers Take Lead In National League

By PAT ROBINSON  
(International News Service Staff Writer)  
NEW YORK, May 9.—If there is a hotter baseball town in the country today than Brooklyn we never heard of it.

The pennant fever is raging madly among the populace on the rubber plant and baby buggy side of the Brooklyn bridge and if the Dodgers fail to set an all-time record for attendance this year it will only be because Ebbets field can't hold as many as the Yankee stadium.

They moved up on top by beating Mort Cooper and the Cards, 5-4, in 12 innings.

Yanks Trip Indians  
There was only one other game in the National League and in that one the Cubs shoved the Phillies a little deeper in the cellar when Vern Olsen left-handed the Phils into a 5-1 defeat. The Cub pitcher helped his own cause with a homer.

There were three games in the American and in these the Yanks again topped the Indians, 5-4; the Senators again beat the Tigers, 7-1, and the Athletics downed the Browns, 9-6.

## Legion Of Honor Will Play Golf

First Match Of Season Will Take Place Monday At Castle Hills

Leon A. Drumm, chairman of the Legion of Honor golf committee, announced today that plans for the summer have been completed, and arrangements have been made to play the first match on Monday evening, May 12, at Castle Hills course.

Members of the Masonic fraternity have been invited to join with them on this occasion, and a large turnout is expected.

## Ladies Results At Field Club

The following were winners in the blind bogey events at the Field club course yesterday for the ladies one-day tourney: For 18 holes, Mrs. Roger W. Rowland with a net of 99; for 9 holes, Mrs. Elmer Reiber with a net of 46. Winner of the total of six blind holes, Mrs. W. W. Horner with a 25.

ANN ARBOR—University of Michigan's baseball team batted .304 in nine spring training games against southern schools.

Carl Gennock, whose baseball career was almost ended by a batted ball which struck one of his eyes last season, is back in the picture, filling an infield slot on the Lawrence Indians team. The shifty south sider is one of the oldest sandlotters, in point of service, in the county. Carl, who is 34, started playing baseball with the Scioto Street Sluggers of 1914.

Howard V. Smith, who keeps a 24-hour vigil on the sports scene, watched the New York Yankees scalp the Cleveland Indians Wednesday. "Smitty" wasn't greatly impressed with the performance of Jerry Priddy. "Rizzuto and Priddy can't carry the gloves worn by Lou Boudreau and Ray Mack. Rizzuto has a lot of class. Both teams looked exceedingly good. It looks like a close race all the way," Smith reports.

George Case, the modern Ty Cobb, is way off in his base stealing. The Washington flash, who purloined 35 bases in 1940, recorded his initial piff of the semester a few days ago against Cleveland.

Something to cheer the modern bush leaguer who aspires to crash the big top—"Lefty" Grove, as good as any big timer who ever toed the rubber, started out with Martinsburg of the Blue Ridge League back in 1920.

Cleveland plays 28 games in Municipal Stadium throughout this season. . . . Dick West, Cincinnati Reds catcher, is regarded as the fastest runner among National League backstops. He developed his speed by playing every position on the field at one time or another before he donned the shin guards and chest protector. . . . Joe Beggs, the Cincy relief chucking star, won four of his 12 victories over the Pittsburgh Pirates last season.

## SOFTBALL, MEETS TONIGHT

There will be a meeting at the "Y" tonight of all managers and officials of the Lawrence County softball league at 8 o'clock. Rocco P. Vignano will preside. The managers must have their franchise money with them. A board of commissioners will be named tonight.

Short short bits:—Bobby Jones says the three-foot putt is the most difficult shot in tournament golf. . . . Derby officials spend \$55,000 merely to paint Churchill Downs race track stands! . . . Bernie Bierman had better stick to football coaching. The Minnesota chiefman participated in the American Bowling Congress tournament in St. Paul recently and dumped but 321 maples in three games.

A prediction: Billy Soose to whip play boy Ken Overlin tonight. Some of the more informed scribes seem to think that a Lou Nova-Joe Louis September bout has already been signed, sealed and awaiting delivery. If that's so, what a money wrench Billy Conn could toss in the mechanism. . . . Lou Barry, the professional scully champion, has been captured by the Nazis. Barry has been serving with the British army.

## FROM ME TO YOU

By MESEALL

People are beginning to think about vacation time . . . maps are spread out in the evenings and the whole family is home talking over the plans. To the seashore or the mountains . . . that old Jiggs gag. But it's fun and we hope that nothing comes along that will hinder any one from taking a trip this vacation time.

How are you coming with your garden . . . we asked you yesterday but in the rush we forgot to ask if you have any sweet corn planted as yet? And how many are going to plant blue Mexican sweet corn this summer . . . we have a couple of rows in and if it warms up soon and the rains keep coming there should be corn rather early this season. There is nothing like corn on the cob and plenty of butter with good bread. Can hardly wait until it's that time of year . . . but then there are a lot of good eating things between now and then . . . right now the asparagus is good . . . and if you can get it fresh from the ground . . . all the better. If any one has any new recipes for better foods would they kindly send them in . . . let your friends enjoy the better things in life.

Tonight JEAN BARTSCH will present the "Dance Follies of 1941" on the Cathedral Stage . . . local talent will show their stuff . . . not just children but adults as well with a few Westminster College students to add variety. This is a show worth seeing . . . New Castle has talent, you should get around and look it over . . . you might be surprised. The show starts at 8 o'clock.

If the city would buy some new equipment . . . say about two or three small size, one man street sweepers, a first aid truck with the necessary accessories for the fire department, a street flusher downer . . . they would be really modernizing the town. How could they pay for all this . . . maybe they could issue some city bonds. If I am not mistaken they have a little leeway . . . and since the city and county are both in good shape there wouldn't be any trouble in getting the thing put across. Now this is our idea and probably will not go down very well with some people . . . but this is still a free land where one may say what he thinks . . . we hope.

Don't forget that Sunday is Mother's Day . . . "treat" the sweetest woman in the world.

## Council Grants Wage Increase To Boro Employees

completed and the next step is public hearings.

Boro manager, Lowell W. Monroe, who conferred in Washington with government housing officials, reported that the government will provide the sanitary sewers for the new defense housing project at their own expense, and that they will be constructed under boro approval and inspection.

An agreement between the boro and the government for payment of taxes on the houses was read and accepted on first and final reading. The government will pay 13 per cent of the rent in lieu of taxes, and in addition 50 cents per family per month for garbage collected was agreed upon with the total annual revenue to the boro to amount to approximately \$1600. The school tax was worked out in the same manner.

Calling for the purchase of land outside the boro suitable for the erection of a garbage disposal plant, an ordinance was presented by A. J. Howell, as was a similar ordinance asking for the advertisement of bids for 100 per cent garbage collection by contract. Howell asked that the action was not to buy property or to let a contract but only to secure prices in order that definite action on free garbage collection may be taken soon.

Various bids were opened. Bids for sanitary sewer materials for street being lined by the boro, two bidders, New Castle Duntile company, \$1063, and Oscar Dahl, \$1510. They were referred to the health committee with power to act.

Bids for 37,000 gallon of road oil for asphalt paving were opened. There were three bids and the contract was awarded the low bidder, J. R. Allen, of Beaver, at 6.9 cents per gallon.

Bids for public liability and damage automobile insurance were opened. A recommendation was offered by the fire and water committee that the contract for 1000 feet of hose at 62½ cents per foot; and 100 feet of leader line at 45 cents per foot, be given to H. O. Felton, Ellwood, the low bidder, at 6.9 cents per foot.

A recommendation by the boro manager that a fire hydrant be installed at Orchard avenue and Roosevelt Way was passed. Fire damage for the month amounted to \$70 with 14 calls, 11 grass fires, having been answered.

Decisions for the paving of many streets by W.P.A. projects and by the 100 per cent assessable basis were presented. They were: Oliver Way between Sixth and Short streets; South 13th street between Center and Crescent; Pittsburgh Circle, between North Second and Fountain; and Orchard avenue between Bridge and Spruce; and Fountain Way between Fifth and Sixth streets. Lee R. Kimes, L. Bruce Myers, and Frank Fitzgerald, trustees of the Elks Lodge, attended and asked the paving of Oliver Way by contract. Monroe stated that no provision had been made in the budget for the paving of streets, and they finally agreed to accept a W.P.A. project on the 100 per cent payment basis. They will meet with the street committee and boro manager.

A communication was received from Attorney R. B. Luke, representing the Pennsylvania Power company, granting the boro the right to supply current to the defense housing project for the present time. The boro had the facilities in the district and had already supplied current to the contractor.

A motion that Fulmer field be leased as a ball park with the right for later buying was presented and passed. It is said that the Shelby Land company is contemplating the sale of the Ewing Park diamonds to individuals.

The health officers reported included 33 cases of measles, 16 of chicken pox and 2 of scarlet fever. Total costs, fines and forfeits amounted to \$154 for April. Tax collections were: \$55 for 1938; \$119 for 1939; and \$619 for 1940.

A. J. Howell made a plea that the deskman who works five days a week, be given a day off a week. The matter was referred to the police committee.

Day light savings time was discussed. The solicitor said that council has no authority to regulate the time but that such action might be respected by the community. No action was taken.

Authority was given the boro manager to purchase \$250 worth of shrubbery for beautifying the front of the city building.

In loving memory of my wife, Bertha A. French, who died May 9, 1940.
